

LANDSBERG, J. M. On degenerate secant and tangential varieties and local differential geometry .....	605
LANGER, ANDREAS AND SHUJI SAITO. Torsion zero-cycles on the self-product of a modular elliptic curve .....	315
LEDOUX, M. AND D. BAKRY. Sobolev inequalities and Myers' diameter theorem for an abstract .....	253
LIN, HUAXIN, GEORGE A. ELLIOTT, GUIHUA GONG, AND CORNEL PASNICU. Abelian $C^*$ -subalgebras of $C^*$ -algebras of real rank zero and inductive limit $C^*$ -algebras .....	511
LINDBLAD, HANS AND CHRISTOPHER Sogge. Restrictions theorems and semilinear Klein-Gordon equations in $(1 + 3)$ -dimensions .....	227
LINUSSON, SVANTE AND KIMMO ERIKSSON. Combinatorics of Fulton's essential set .....	61
LÓPEZ, RAPHAEL AND SEBASTIÁN MONTIEL. Constant mean curvature surfaces with planar boundary .....	583
MANIN, YU. AND K. BEHREND. Stacks of stable maps and Gromov-Witten invariants .....	1
MIMACHI, KATSUHISA. A solution to quantum Knizhnik-Zamolodchikov equations and its application to eigenvalue problems of the Macdonald type .....	635
MONTIEL, SEBASTIÁN AND RAPHAEL LÓPEZ. Constant mean curvature surfaces with planar boundary .....	583
MOORE, JOHN DOUGLAS. On extendability of isometric immersions of spheres .....	685
ONO, KAORO. Lagrangian intersection under Legendrian deformations ...	209
PARIMALA, R. AND R. SUJATHA. Hasse principle for Witt groups of function fields with special reference to elliptic curves. Appendix by J.-L. Colliot-Thélène .....	555
PASNICU, CORNEL, GEORGE A. ELLIOTT, GUIHUA GONG, AND HUAXIN LIN. Abelian $C^*$ -subalgebras of $C^*$ -algebras of real rank zero and inductive limit $C^*$ -algebras .....	511
PINCHOVER, YEHUDA. On positivity, criticality, and the spectral radius of the shuttle operator for elliptic operators .....	431
PREVIATO, EMMA AND BERT VAN GEEMEN. On the Hitchin system .....	659
PROPP, JAMES, HENRY COHN, AND NOAM ELKIES. Local statistics for random domino tilings of the Aztec diamond .....	117
SAITO, SHUJI AND ANDREAS LANGER. Torsion zero-cycles on the self-product of a modular elliptic curve .....	315
SCHOMERUS, VOLKER AND ANTON YU. ALEKSEEV. Representation theory of Chern-Simons observables .....	447
SHEN, YING AND RUGANG YE. On stable minimal surfaces in manifolds of positive bi-Ricci curvatures .....	109
SOGGE, CHRISTOPHER AND HANS LINDBLAD. Restrictions theorems and semilinear Klein-Gordon equations in $(1 + 3)$ -dimensions .....	227

STAVRAKAKIS, N. AND K. J. BROWN. Global bifurcation results for a semilinear elliptic equation on all of $R^N$ .....	77
SUJATHA, R. AND R. PARIMALA. Hasse principle for Witt groups of function fields with special reference to elliptic curves. Appendix by J.-L. Colliot-Thélène .....	555
VAN GEEMEN, BERT AND EMMA PREVIATO. On the Hitchin system .....	659
VISTOLI, ANGELO AND SHUN-ICHI KIMURA. Chow rings of infinite symmetric products .....	411
YE, RUGANG AND YING SHEN. On stable minimal surfaces in manifolds of positive bi-Ricci curvatures .....	109
